PRICES HEREIN REPLACE LISTINGS ON
PAGES 9-22 OF OUR 1957 CATALOG.

TERMS AND CONDITIONS OF SALE

PRICES: This price list cancels all previous quotations and the prices quoted herein are subject to change without notice. All quotations are for immediate acceptance and subject to stock being unsold.

TERMS: Cash with order.

TRANSPORTATION: Customer assumes all costs and risks of transportation. You may specify method you prefer, or leave the choice to us. Only "mailable" sizes can be shipped by parcel post. On parcel post orders, please include adequate postage. We will refund any amount not used. On express or motor freight shipments, charges are collect, unless otherwise arranged. You may estimate cost by using the following approximate weights: Quart—2 lbs.; gallon—6 lbs.; 2 gal.—12 lbs.; 4-gal.—25 lbs.; 1-1½'—20 lbs.; 1½-2'—30 lbs.; 2-3'—40 lbs.; 3-4'—75 lbs.; 4-5'—125 lbs.

CLAIMS: All claims (except for errors in labelling) must be made on receipt of plants. We shall be glad to rectify any mistake made by us, but it is agreed that in no instance will our liability be more than the price of the plant.

GUARANTEE: All plants are guaranteed to be true to name and in good condition when they leave the nursery. We cannot, however, guarantee them to live, or flower, or guarantee them in any other way. Certain Camellia varieties when grafted sometimes bloom variegated even though the parent is not variegated, and for this reason we cannot guarantee grafted Camellias to be true to color in this respect.

PACKING CHARGE: We require a 50c packing charge on orders totalling less than \$4.00.

QUANTITY ORDERS

AZALEAS: You may order 5 and 50 of one size and variety at the 10 and 100 prices respectively. Varieties or sizes may not be combined to compute the lowest price.

CAMELLIAS AND ORNAMENTALS: We offer the following reductions in bare-root and potted (4-8") sizes only: If you order 5 or more of the same size and variety, deduct 10c per plant; if you order 50 or more of the same size and variety, deduct 15c per plant. However, with potted plants (the 4-8" size), these reductions do not apply to parcel post shipments. In no case may sizes or varieties be combined to compute the discount.

DESCRIPTION OF VARIETIES

Refer to our 1957 catalog for descriptions of about 75 of the best proven varieties. If you do not have a copy, write for one. Collectors may refer to **The Camellia: Its Culture and Nomenclature**, 1956 Edition, published by The Southern California Camellia Society, for descriptions of over 2000 known varieties, and a complete cross-referencing of synonyms. We can supply copies of this illustrated, 104-page booklet for \$1.50 each postpaid. Since it is revised every two years, we will substitute the 1958 Edition when available.

AZALEAS IN CONTAINERS

Prices of Azaleas in our 1957 Catalog are still in effect. However, since they do not specifically cover Azaleas in containers, we are listing the following prices which apply to all varieties (the dimension given is the top diameter of the container):

Quart (4"): 45c each; 9 for \$3.00

Gal. (6"); 90c each; 4 for \$3.00

2-gal. (7½"): \$1.35 each; 2 for \$2.50

4-gal. (9"): \$2.50 each.

The quantity price reductions above apply only when ordered in multiples of 9, 4, and 2 in the quart, gallon, and 2-gallon sizes respectively, as each of those numbers will fill up a carton. However, we will permit you to mix varieties within each size in order to compute these reductions on container Azaleas.

CAMELLIA PRICES

Several changes have been made in the arrangement of our Camellia prices this year.

POTTED PLANTS: For the first time, we are listing pot-grown "liners" or "starters" in addition to the bed-grown, bare-root plants. The same quantity discounts apply to the pot-grown (4-8") plants as to the bare-root plants, **provided shipment is not by parcel post.** In small quantities these plants will be mailable, but for larger orders express is more desirable. The quantity discount on potted Camellias does not apply unless shipment is by express and minimum quantities are met as described above. Plants are shipped in plastic pots or paper cups.

5-QUART CONTAINERS. We have changed the "2-gallon" designation this year to "5-quart" for two reasons. First, the 2-gallon can does not have a liquid capacity of two gallons, Secondly, we have some varieties this year in 5-quart oil cans. (We have left the "gallon" size as it is, since the nursery industry uses the term so widely. Gallon cans are 3 inches in diameter at the top, but have a liquid capacity of only about three quarts.)

LARGER SIZES IN CONTAINERS. We have discontinued the separate listing of "4-gallon" containers this year. Instead, we have indicated by the symbol "# " those sizes and varieties in the larger sizes that are available in containers. Most of these are in 4-gallon (9-inch) containers, though where very large sizes are shown they will usually be in larger cans, up to 16 inches in diameter.

ORNAMENTALS

Prices of Broad-leaved evergreens, Coniferous evergreens, and Deciduous trees and shrubs in our 1957 catalog will remain in effect until superseded by a new, separate ornamental catalog that we are preparing. The new catalog will contain a much broader list of plants, including many tropical items. If you are interested in receiving a free copy, please write for it. Ask for the "Ornamental Catalog." If we do not acknowledge your request immediately, you will know that the catalog is not yet ready, but that you will receive one just as soon as it is available.

CAMELLIAS ARE EASY TO GROW

Few plant species, especially among those which produce blooms of top floral quality, are as easy to grow as Camellias. They are tough, hardy, and can grow within wide limits as to soil fertility, climate, and light exposure. They usually need spraying only once, or at most, twice a year. Moderate fertilizer applications of most any fairly well balanced fertilizer will promote vigorous growth and healthy foliage. If planted in porous soil (soil with a sand or peat moss content), and provided with good drainage, little further care is needed. Write for our cultural leaflet on the care of Camellias, if you do not already have a copy.

The foregoing is true of practically all Camellia varieties. However, with a few varieties, some additional, simple precautions are advisable. As a guide to our customers this year we are attempting something new in our Camellia listings. We have introduced a "Caution Code" immediately following the name of certain varieties, which we hope will be a help to those who are not real "Camelliaphiles" and who perhaps do not know the idiosyncracies of certain varieties. By referring to the following numbers, you can interpret the code:

CAUTION CODES

1. Slow growth. (Buy grafted plants for more rapid growth).
2. Does not grow well on own root. (Buy grafted plants).
3. Very susceptible to sunburn or leaf-spotting. (Plant in shade).
4. Subject to damage by DDT and similar insecticides. (Avoid using DDT. Grafts are seldom damaged).
5. Unattractive foliage or growth habit. (These varieties are valuable more for blooms than foliage).
6. Blooms easily damaged by cold. (Protect from cold).
7. Plants easily damaged by cold. (Protect from cold).
8. Subject to die-back. (Prune dead wood back to live joints. Use a good fungicide).
9. Very sensitive to poor drainage. (Provide good drainage and porous soil).
10. Transplants poorly unless container grown or grafted. (Buy container plants or grafts).

Our customers are invited to send in suggestions for improving this listing in future catalogs. We most certainly will have omitted caution codes for some varieties, and perhaps we have been too "cautious" with others. In any case, the codes represent our own opinions and experience, and are subject to correction.

NEW CAMELLIA BOOK

Just as this is going to press, a new 88-page book entitled "How to Grow Camellias", published in California by Sunset Books, has come to our attention. Twenty-six varieties are illustrated in life-size color, together with 131 black and white illustrations of plants and blooms. It is eight by eleven inches in size. We can supply copies for \$1.75 each postpaid.
